

## MRI/CT Referral Form

Please complete the following and fax together with all necessary paperwork (recent records and lab work). Please note, that CT is only available through BAVI at our Leesburg facility.

### GENERAL INFORMATION

- It is very important to note that your patient will be anesthetized for the MRI or CT. Please advise your clients as to the risks of anesthesia, as well as any special instructions regarding medications to be given before the MRI or CT.
- We prefer that all labwork, x-rays, and other testing be done prior to the arrival of your patient. A list of required tests has been provided. Do not hesitate to contact us should you have any specific questions.
- Critical patients must be stabilized before we can proceed with an MRI/CT. Alternatively, you may elect to have your patient admitted through the emergency service at your location and then transferred to Bush Advanced Veterinary Imaging. Transfers will need to be coordinated as part of the MRI/CT scheduling process.
